# LUCA ARIENTI

FRONT-END DEVELOPER

## PERSONAL PROFILE

I'm a passionate front-end developer with a strong eye for the beauty of UI and the quality of the softwares. Creating reliable and scalable solutions is my key objective while developing new applications, therefore I constantly challenge myself to discover and adopt solid solutions to accomplish tasks and achieve product goals.

## EDUCATION

- **Tag Innovation School**  
CodeMaster: Front-end development bootcamp
- **IULM university**  
Graduated in marketing and corporate communication
- **Pio XI high school**  
Diploma from language high school

## EMPLOYMENT

- **Senior front-end developer**  
Commit Software, 2021 - now  
Working on an enterprise WMS for healthcare organizations built with React.js and Typescript and coordinating a team of front-enders on a back-office solution for e-commerce marketplaces made with Vue.js and TailwindUI.
- **Software engineer**  
MotorK 2020 - 2021  
Worked on a SaaS CRM solution for the automotive industry built on top of Vue.js and Symfony. Also had the chance to work on other micro-services using GraphQL and Node.js. I was also in charge of maintaining the design system ensuring UI consistency.
- **Front-end developer**  
Sailogy, 2019 - 2020  
Worked on the makeover of the corporate website built on top of React.js, Typescript, and Next.js. Also had the chance to actively contribute to the application UX flows definitions
- **Front-end developer**  
Commit Software, 2017 - 2019  
Worked on different web and mobile applications using technologies based on customers' requirements. Had the chance to work with Vue.js, Angular 2+, React.js and Laravel. Was also in charge of creating UIs using/wireframes using Sketch and Figma.
